## CERTIFIED SPEED ENFORCEMENT CAMERA WITH THE WORLD'S NO. 1 ANPR ENGINE

**SpeedCAM** is a combination of a high performance, purpose-built plate recognition camera, CARMEN® LPR software and a certified speed measurement tool. The camera's built-in radar is functioning both as a certified speed measurement device with vehicle categorizing and as a high-precision hardware trigger. SpeedCAM automatically exports the requested data (like license plate, speed, category, time stamp, GPS coordinates and many more) in various popular and customizable formats via an integrated 4G/LTE modem. This makes the SpeedCAM an all-in-one traffic management system. The camera reads both reflective and non-reflective license plates in the roughest and toughest environment thanks to its IK10 and IP67 rated robust housing. The quad-core, 1.9 GHz ANPR processing unit makes this camera our most powerful ANPR solution to date. And just to be on the safe side, the camera runs a complex Vehicle Detection algorithm which makes sure that the system loses no events.

### MAIN BENEFITS

- All-in-one traffic solution
- On-board ANPR: runs CARMEN® on a quad-core CPU
- Performance boosted by VehDet algorithm
- Integrated radar: certified speed, classification and hardware trigger
- Secondary sensor and lens: Advanced Vison imaging
- Glare-free and shadow-free imaging

TOWARD THE FUTURE IN SAFETY – SINCE 1991

## SPECIFICATIONS

## SPEEDCAM

- Certified speed measurement • onboard ANPR • multi-core imaging • multi-core image processing • smart illumination • GPS • easy integration
- 4G/LTE modem • reading reflective/non-reflective license plates

|                 |   |
|-----------------|---|
| Production Code | <b>SPEEDCAM FHD DUAL PLUS</b><br>SpeedCAM-03-4562 |
|-----------------|---|

### DISTANCE RANGE

|  |                             |
|--|-----------------------------|
| Optimal ANPR range at ambient light      | 10 m – 20 m / 33 ft – 65 ft |
| Maximum ANPR range at optimal conditions | 40 m / 130 ft               |

### IMAGING

|                                      |   |
|--------------------------------------|---|
| Resolution (H × V pixels): framerate | Sensor1: 2048 × 1536: 20 fps, 1920 × 1080: 30 fps<br>Sensor2: 1280 × 960: 54 fps      |
| Function of the second sensor        | Advanced Vision   |
| Day mode / night mode                | Light sensor configurable auto-switching day/night mode, automatic brightness control |
| High Dynamic Range mode (HDR)        | –   |
| Lens                                 | Main lens: 3.3x, automatic, motorized lens  |

### ILLUMINATION

|                    |                                  |
|--------------------|----------------------------------|
| Wavelength         | 850 nm (Infrared)                |
| Illumination modes | Synchronized flash or continuous |

### PROCESSING & I/O

|                         |  |
|-------------------------|--|
| CPU for ANPR            | Intel Atom Quad Core 1.9GHz                        |
| Communication protocols | ARP, ICMP, TCP/IP, DHCP, NTP, FTP, HTTP, SMTP, RTP |
| 4G / GPS                | Included   |

### ELECTRICAL DATA

|                           |   |
|---------------------------|---|
| Power requirement         | 24-28 V AC  |
| Power consumption typical | 20 W  |
| Connectivity              | Binder M12 circular: Ethernet (8-pin), Power (4-pin), User (8-pin), User (12-pin) |

### ON-BOARD INTELLIGENCE

|  |  |
|--|--|
| CARMEN® ANPR   | Included   |
| Video Analytics (Vehicle Detection, Motion Detection, Private Zones) | Included   |
| Trigger sources  | GPIO/ UART/ Software trigger (controlled via HTTP request) |

### MECHANICAL DATA

|   |   |
|---|---|
| Operating temperature*                                  | -40 °C – 70 °C / -40 °F – 158 °F *  |
| IP & IK rating  | IP67 & IK10   |
| Dimensions (without bracket)<br>length × width × height | 390 mm × 167 mm × 155 mm (15.4" × 6.6" × 6.1")  |
| Weight (without bracket)                                | 4.6 kg / 10.1 lbs   |
| In the box  | Camera with data cable, power cable, bracket, shield (equipped) and radar with bracket. |

### RADAR

|                       |               |
|-----------------------|---------------|
| Measurement Principle | Doppler-Radar |
| Measurement Frequency | 24.165 GHz    |

### OPTIONAL ACCESSORIES

I/O cables, FreewayCAM RAD-AR Trigger, FreewayCAM IR-LIGHT 3, Junction box

\*internal temperature / ambient temperature: max. 55 °C (131 °F)
