

adaptive knowledge

For the past two and a half decades, we at ARH have been closely working with our partners **analyzing opportunities** in LPR technology. We recognized that in order to satisfy all needs, we need to look for **knowledge-based solutions** that surpass your everyday FAQ, guide or manual. For this exact reason, we have always placed great emphasis on providing and continuously developing **a solution that lies beyond technology**, a solution we call **the LPR Academy**.

WE ARE OFFERING A LIMITED PERIOD DISCOUNT OF UP TO 50%* ON ALL TRAINING SESSIONS BOOKED BETWEEN **SEPTEMBER 1ST** AND **DECEMBER 31ST** OF 2016.

KEY FEATURES

- > Provides attendees with certificates
- > ARH Certified partners receive premium support and services
- > Includes devices, device samples and learning materials

MAIN BENEFITS

- > Saves time, resources and money
- > Enables faster system integration
- > Enhances system efficiency
- > Facilitates optimal system design

At its core, the LPR Academy is comprised of training sessions which were created with two goals in mind. One, they aim to complement the already existing expertise of our longtime partners, and two, they intend to introduce ANPR technology to integrators who are new to LPR. Ultimately, our goal is to equip our partners, both old and new, with ANPR know-how that is versatile and comprehensive.

*Restrictions and further conditions may apply. For more information, please refer to our terms and conditions.

THE MARKET LEADING PROFESSIONALS

As a pioneer in OCR technology, ARH has been offering highly reliable software and hardware solutions for traffic management, ID data entry and biometrics to system integrators for the past 25 years.
